# THERMAL CAMERA

# SELF-CHECK KIOSK

To ensure the person who is entering in the specified premises must be free from all kinds of viral and bacterial infections.

- **Detects Fever**  
*High Fever indicates symptoms associated with COVID-19*
- **Checks Oxygen levels(SpO2)**  
*Oxygen level below 90% indicates symptoms associated with COVID-19*
- **Touch-less Hand Sanitizer**  
*Decreases the risk of getting sick and spread of Virus*
- **Disinfection Chamber for Bag, Mobile, Keys etc. by UV-C**  
*UV-C kills 99% Virus in 10 seconds thus reducing the spread*

# TEMPERATURE SCREENING KIT

## FEATURES :

-  High accuracy of measuring temperature
-  Instant notification for abnormal temperature
-  Face capture with temp. info overlay
-  Different reports retrieval
-  Cost effective
-  Easy to deploy

Integrated Temperature  Screening Kit with Facial recognition and Access control

## Applications :

# FLAP BARRIER SYSTEM

AL REYAMI  
TECHNOLOGIES L.L.C.

## Flap Barrier System

smart access control system in the situation of covid-19

**Face**  
Recognition

**Temperature**  
measurement

10,000 face data  
200ms for each person

Range from 30-45 C°  
Accuracy +/- 0.3 C°

Airport

Metro

Commercial Building

School

# DIGITAL SIGNAGE KIOSK

## A Digital Signage Kiosk with Dispenser for Instant Hygiene!

### FEATURES :

- Centrally managed with real-time content
- Advertising and product promotion
- Contactless dispenser
- Promotes self-service environment
- Reduces cross contamination

Auto Dispense  
Technology

Dispensing  
Life

Built-in  
Android

Cloud-based  
Signage

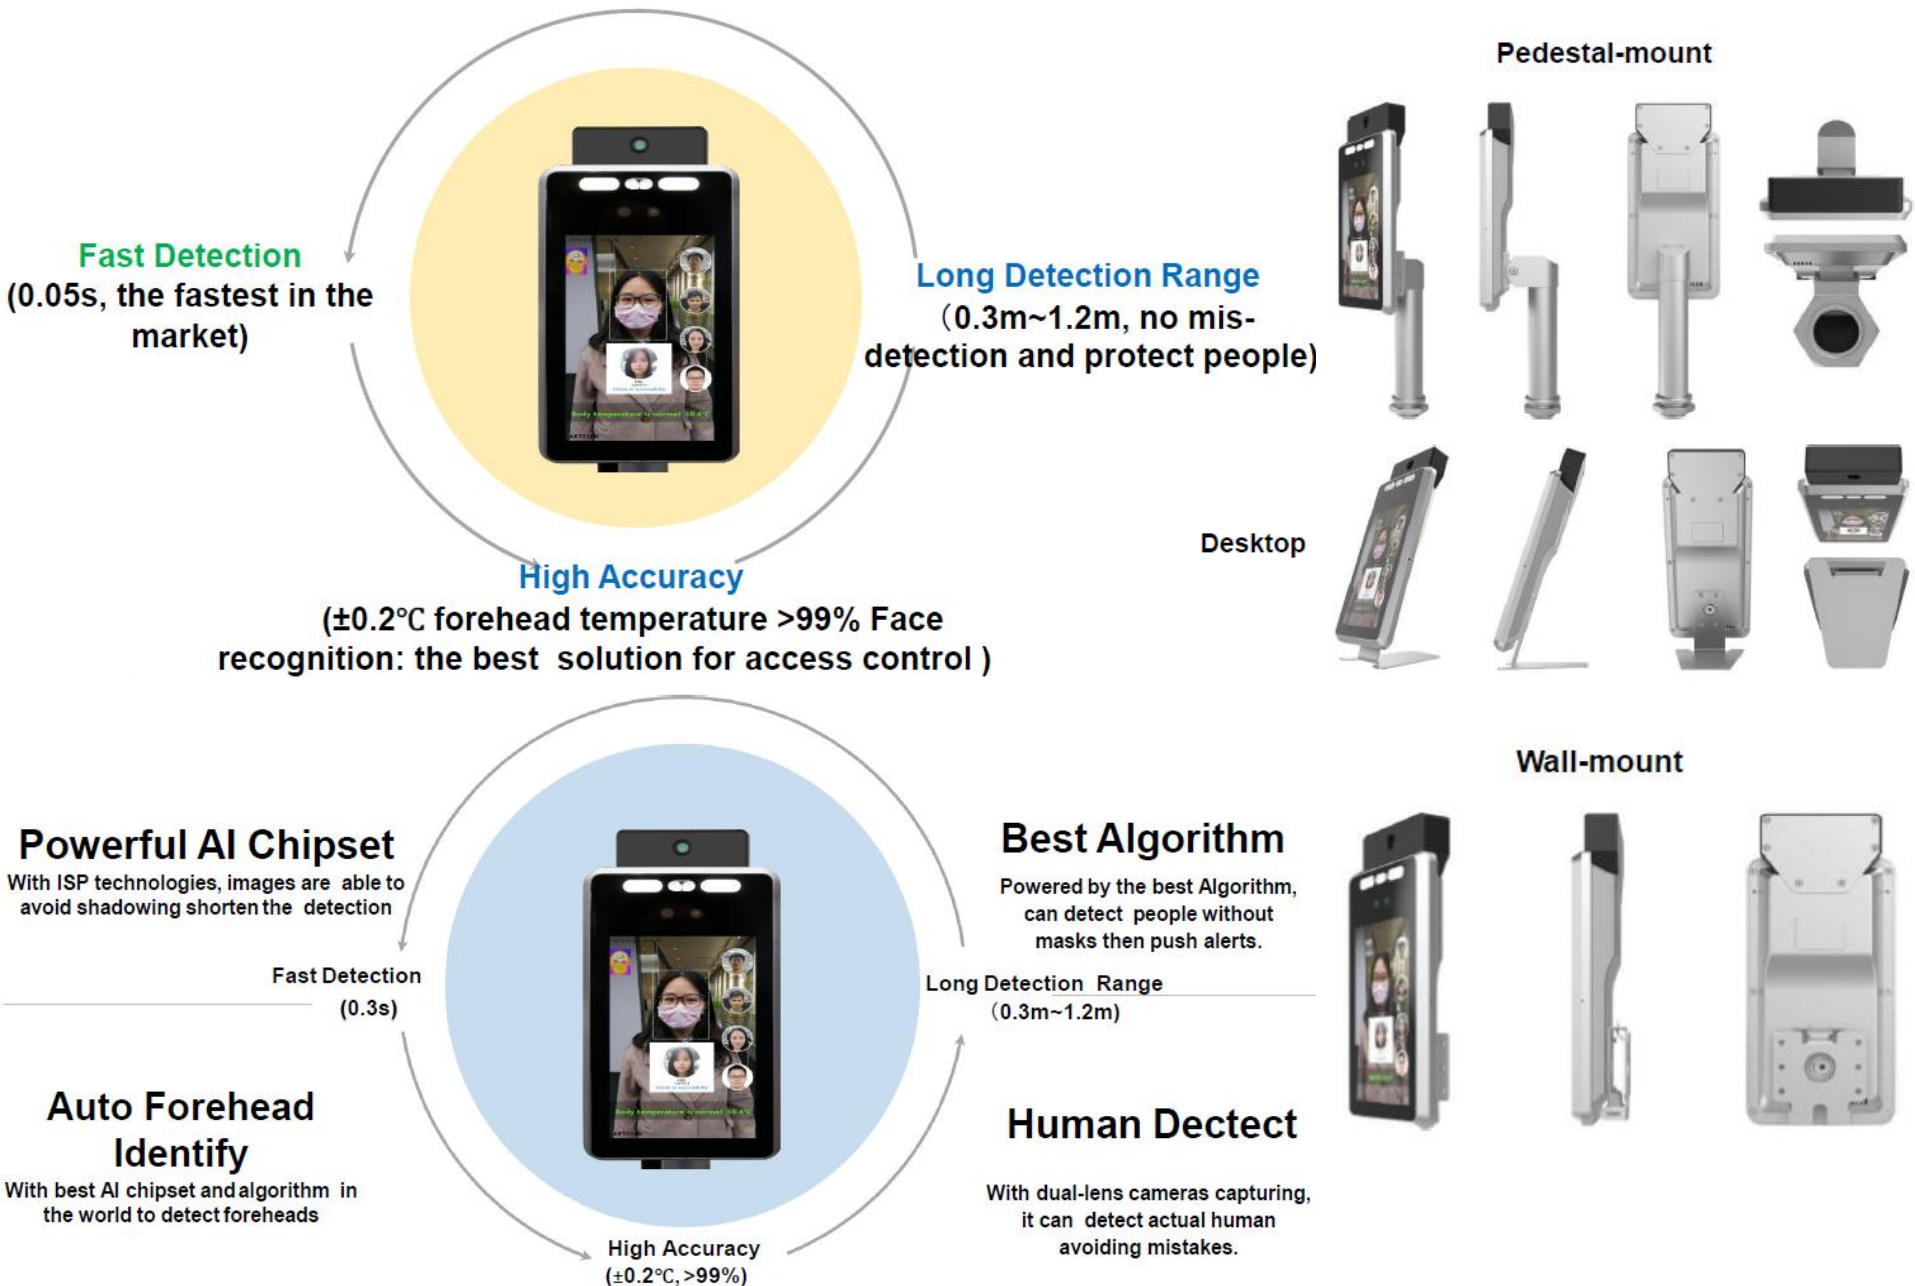

Wifi

FHD  
Resolution

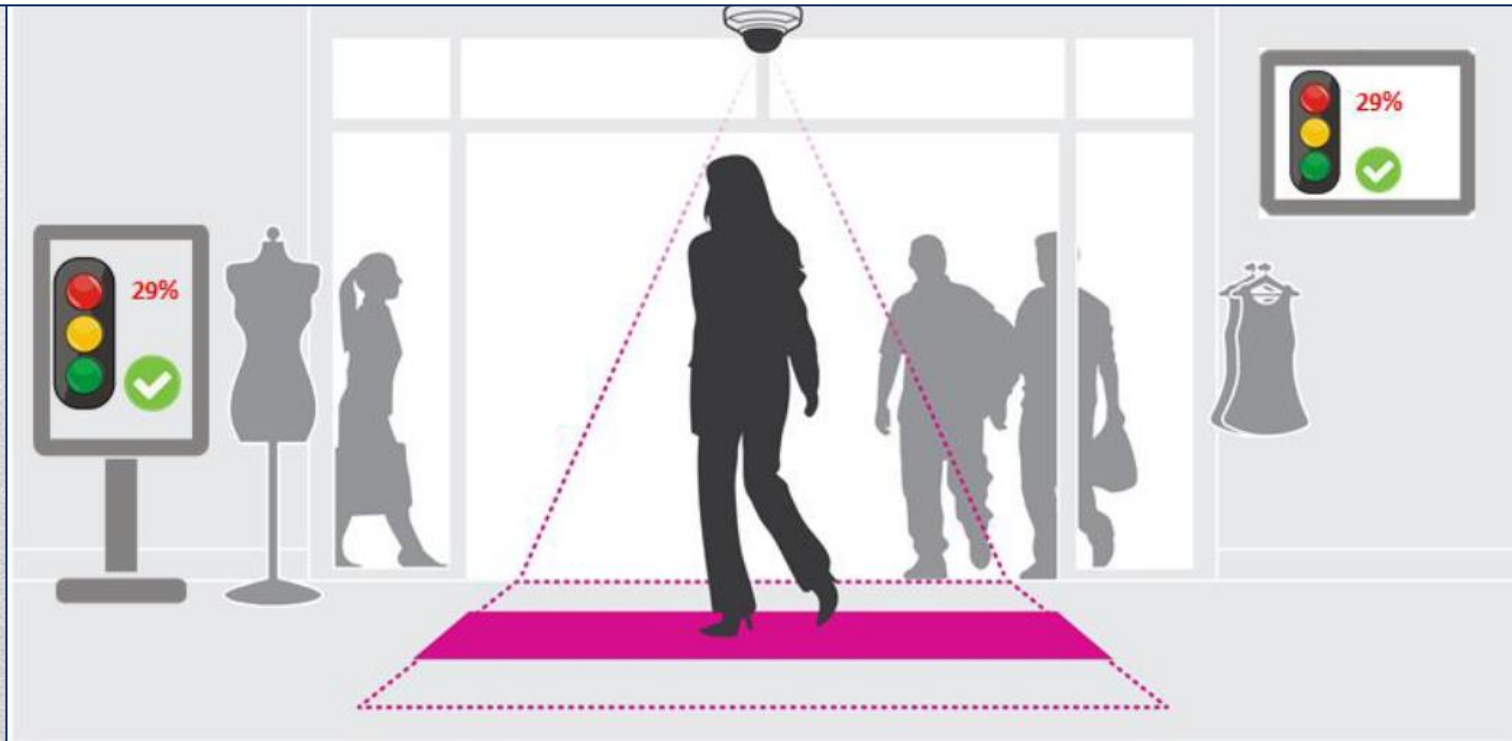

# SOCIAL DISTANCE ANALYZER

Social Distance Analyzer (SDA) is installed in a ceiling-mounted network camera near any entry and exit way, this application enables reliable two-way counting of people in both directions simultaneously as well as people tracking and real-time alerting and reporting

- > Track People entering & exiting from any point
- > Track Social Distance Adherence
- > Track people concentration via heat maps
- > Alert security or agents on excessive gatherings
- > Track Walking path compliance of clients
- > Based on proven AI + Computer Vision technology
- > Track Mask Compliance and Proper Usage
- > Real-Time Customizable Visual interface for Clients

This solution counts the number of customers inside in real-time. When the number of people exceeds the threshold set by the user, it will remind people to wait outside.

## Multi-Entrance/Exit Store

When the number of people inside the store is within the threshold set by the user, incoming customers are **allowed to enter**.

Remind people to **pay attention** when the number of people inside the store is about to reach the threshold set by the user.

When the number of people inside the store exceeds the threshold set by the user, incoming customers are **not allowed to enter**.

## During the pandemic:

Help the stores keep open during the pandemic, counteract the spread of the virus by controlling access and gatherings

+ Signage Display

## After the pandemic:

Help to get more revenue by customer flow analysis and better promotion efficiency with limited upgrading or without upgrading

**HOSPITALS**

**AIRPORTS**

**BANKS**

**OFFICES**

**SCHOOLS**

## AL REYAMI TECHNOLOGIES L.L.C.

Providing you best-in-class ICT and Remote-Working Solutions to  
meet today's business development challenges
