Empower Your Workforce During COVID-19

Business Continuity Solutions for a Robust Organization

Challenging times calls for disruptive solutions...

AI Reyami Technologies with it's innovative portfolio of solutions are determined to ensure business continuity amid COVID-19

We offer solutions from two standpoints –

1) From an Infrastructure perspective:

- I. Cloud migrations and hosting
- II. Cyber security including Email security, Firewalls, Antiransomware etc.
- III. Thermal cameras
- IV. Contactless Access Control Solutions
- V. Data Loss Prevention & Employee Monitoring Solutions
- VI. Virtual Desktop Infrastructure (VDI)
- VII. Back-ups, Disaster Recovery and High Availability
- VIII. Microsoft Office 365

2) From an Application perspective:

- I. ERP
- II. CRM
- III. Document Management and Workflow Solutions
- IV. Human Resource Management Solutions
- V. Learning management combined with Education management solutions
- VI. Robotic process automation (RPA) including Chatbots
- VII. Analytics
- VIII. Digital Signature Platform

INFRASTRUCTURE

Let's set the foundations....

CLOUD OFFERINGS

Infrastructure

Platform as a Service (PaaS)

Infrastructure as a Service (IaaS)

Software as a Service (SaaS)

Disaster Recover as a Service (DRaaS)

Cloud Backup as a Service

CYBER SECURITY

Infrastructure

Email Spoofing Analysis & Protection

Current State Assessment

Comprehensive IT Security Monitoring

Penetration Test (VA/PT)

Web Application Test

Consulting/Gap Analysis

THERMAL CAMERAS

Infrastructure

Security Thermal Cameras

Thermography Thermal Cameras

Commercial Vision Thermal Cameras

CONTACTLESS ACCESS CONTROL SOLUTIONS

Infrastructure

Body Temperature & Mask Detection

Time Attendance

Smart Lock

DATA LOSS PREVENTION & EMPLOYEE MONITORING SOLUTIONS

Infrastructure

Endpoint Data Leakage Prevention
Intellectual Property Theft Protection
Employee Behavior Monitoring
Insider Threat Response System
Web Content Filtering
Workplace Productivity Monitoring
Application Monitoring/Whitelisting

VIRTUAL DESKTOP INFRASTRUCTURE (VDI)

Infrastructure

Safely connect Customers to their Windows computers from anywhere

Give employees session privacy, unlike remote control software

Replace expensive software like LogMeIn, TeamViewer, & GoToMyPC

Secure RDP and VDI without RDS Gateway or open firewall ports

Help organizations find out if hackers have stolen their logins

Help companies meet PCI / HIPAA compliance for exposed RDP Ports

BACK-UPS, DISASTER RECOVERY & HIGH AVAILABILITY SOLUTIONS

Infrastructure

Backup & Replication for VMware VMs & Hyper-V

Disk-Image Backup for Windows Servers & Workstations

File & Application Backup for Windows, Linux, and Mac

Backup for AWS EC2 Instances, Office 365 & G Suite

MICROSOFT OFFICE 365

Infrastructure

Office Apps - Stay up to date with the latest versions of Word, Excel, and PowerPoint on any device

Email and Calendaring - Connect with customers and coworkers using Outlook and Exchange

Chat, call, and meet - Keep your team on the same page with chat, online meetings, and calling in Microsoft Teams

Cloud storage - Manage your files from anywhere with 1 TB of OneDrive storage

Defend against cyberthreats - Protect against viruses, malware, phishing attempts, ransomware, spam, and other threats

Secure your devices - Help keep your data safe, even when accessed on employees' personal devices

APPLICATIONS

Let's explore automation....

A decorative vertical panel on the left side of the slide featuring a bokeh light pattern with overlapping circles in shades of blue, purple, and yellow against a dark background.

ERP

Applications

- Increase financial visibility
- Optimize your supply chain
- Boost sales and improve service
- Deliver projects on time and under budget
- Run your business anywhere

CRM

Applications

Engage customers in meaningful ways

Drive revenue growth by transforming the sales journey

Empower sales teams to be more effective in their day to day operations

DOCUMENT MANAGEMENT & WORKFLOW SOLUTIONS

Applications

Collaboration
File Sharing
File Request
Security
Document Version Control
Remote Working

HUMAN RESOURCE MANAGEMENT SOLUTION

Applications

Payroll

Attendance

Recruitment

Employee Onboarding

Self-service

Performance Appraisal

LEARNING MANAGEMENT & EDUCATION MANAGEMENT

Applications

Academic Management

Time-table

Financial Management

Library Management

Transportation

Portals for Students, Parents & Teachers

ROBOTIC PROCESS AUTOMATION (RPA)

Applications

RPA or Robotic Process Automation is a non-disruptive, non-invasive, and easy way to optimize your workflow by delegating routine tasks to bots

Bots efficiently connect all your IT solutions (office apps, browser, emails, etc.) and help employees spend more time on what matters, leaving the routine tasks automated

With RPA bots employees will have more time to devote to value-added and creative tasks instead of routine ones

The elimination of the scope of manual errors reduces the number of complaints. Bots can give faster answers to the users and with higher accuracy

DATA ANALYTICS – BUSINESS INTELLIGENCE

Applications

Create custom dashboards across multiple spectrum of office functions

Obtain actionable insights

Data Visualization helps your business to understand and interpret business trends, visualize correlations, and to make informed decisions

Predictive Analytics help you analyze your business trends, patterns in data and predict what is likely to happen next. Predictive analytics combines data mining, optimization, advanced data analytics, ad-hoc statistical analysis, predictive modeling, real-time scoring, and machine learning to facilitate your business to predict its future

DIGITAL SIGNATURE PLATFORM

Applications

- Sign from anywhere
- Instant status visibility
- Highly secure
- Reusable templates
- Integrate with core applications
- Automatic archival
